# Episode 18.05

Episode **Introduction to Networking**  
title:

Objective:

## Lower 3rds

- **Direct-buried cable (DBC)** = Shielded for Outdoor Use
- Designed to Be Placed Directly in Soil
- Extra Layers Protect Against Water, Heat, Cold, and Soil Acidity
- Ideal for Extending Networks Between Buildings

## Lower 3rds

- Buried Cable Reduces Risk from Lightning Strikes
- Direct Burial = Exam-Worthy Term to Remember

## Direct-buried cable

## **Insulation benefits**

Extreme temperatures

Moisture

Soil acidity

Physical pressure

Lightning

OBJ - Loopback plug

A loopback plug or a loopback cable takes an output signal and reverses it into the input signal of the same port

Loopback plugs are also made for fiber connections

## Loopback plug

Otherwise known as,  
loopback cable:

Output signal and reverses it into  
the input signal of the same port

## Loopback plug

Otherwise known as,  
loopback cable:

Output signal and reverses it into

## Loopback plug

Otherwise known as,  
loopback cable:

Output signal and reverses it into  
the input signal of the same port

## Fiber Loopback plug

Single-mode

Multi-mode

Typically color coordinated to match mode type

## Fiber Loopback Plug

So if you work with fiber optic cabling, you have the ability to test the fiber ports
